Conventional Hybrid Bikes

The Jamis Citizen 1 21-speed hybrid bike is designed for comfort and recreational riding, featuring a lightweight 6061 aluminum frame, 700c wheels, and 4-inch rise handlebars. It has a plush saddle with memory foam and handlebars promote a more upright and comfortable riding posture. The bike is outfitted with a standard water bottle cage. Suitable for heights 4'10" to 6'6."

The Jamis Citizen 1 21-speed Step-Thru is a lightweight, recreational bicycle designed for comfort and ease of use. It features a 6061 aluminum frame. The step-through frame is particularly useful for riders with limited hip flexibility or those who prefer easy mounting and dismounting and the upright seating position provides a clear view of the surroundings. The bike is outfitted with a standard water bottle cage. Suitable for heights 4'10" to 5'8."

The Jamis XR 7-speed series kids' bikes come in two wheel sizes, 20" and 24", and are designed to be lightweight, functional, and reliable for young riders. It features a lightweight aluminum frame, 1x7 drivetrain, and a rigid fork, making it easy for kids to handle. The bike is outfitted with a standard water bottle cage. The XR series suits different age groups, from five to 13 and heights ranging from 3'4" to 4'10."

Bike Accessories and Attachments

A tag-a-long is essentially a child's bicycle without the front wheel. It fits to the back of an adult's bike to form an articulated tandem. You and your child can make trips that are faster, further and safer than you could manage on separate bikes. Suitable for ages 4 to 8 and heights 3'4" to 4'4." These ages and heights will vary by child and leg length. *Not available for use on E-Bikes.

Our Burley Cub child trailers attach to the back of an adult's bike. With UV-protected windows, front and rear reflectors, and a 5-point harness, the Cub takes both safety and comfort seriously. Minimum age is 12 months and children must be able to hold their head up. Seats maximum 2 children. Maximum weight 60 lbs total. Suitable for ages 12 months to six years.

Our child seats fit onto the back of adult bikes. The wrap-around seat structure creates a virtual cocoon of protection and features a shoulder harness with a multiple height adjustment system. An innovative suspension system cushions bumps and jolts and the integrated roll bar provides extra head protection. Minimum age is 12 months and child must be able to hold head up. Maximum weight 25 lbs. Suitable for ages 12 months to two years.

Our racks and racks with packs are a great way to strap on and cart your lunch on your biking adventure. The rack alone comes with a bungee and can strap a lunch bag, small backpack or small padded cooler up to 750 cubic inches. The rack with pack comes with a 750-cubic-inch bag to store a couple of sandwiches, snacks, drinks, sunscreen, or a poncho for your ride.

Electric Bikes & Accessories

The Cannondale Adventure Neo 4 Class 1 pedal assist bike provides a smooth ride for your carriage road experience. The 400Wh Bosch battery can take you up to 65 miles on a single charge. The Bosch Activeline Mid-Drive Motor provides strong, reliable power with a balanced ride feel. The upright geometry offers a comfortable riding position and the step-through frame makes it easy to mount and dismount. It has a comfortable saddle and wide tires which provide stability and absorb bumps. The bike is outfitted with a standard water bottle cage. Suitable

for heights 4'10" to 6'6."
